

BC-XTP/LSHF

Pico Skew UTP (Unshielded Twisted Pair) Bulk Cable – Low Smoke & Halogen Free

Kramer's BC-XTP/LSHF is low-smoke, halogen free unshielded twisted pair (UTP) type cable designed as the ideal companion to Kramer analog twisted pair transmitter-receiver sets. BC-XTP/LSHF resembles typical CAT 5e, but with internal components optimized for transmission of video/audio signals rather than high-speed data.

FEATURES

- **Quality Construction** - Durable and flexible bulk cable. 4 pairs of solid 24AWG copper.
- **Optimized for High-Res Video/Audio Signals** - 4 pairs are twisted at the same ratio so the actual length of each is identical. Video skew or "skew" is eliminated in long runs because the RGB color signals arrive at the same time. Note that BC-XTP/LSHF is not suited for high-speed data or network applications.
- **Optimized for Kramer Hardware** - Use with any of Kramer's wide range of twisted pair transmitter-receiver sets such as PT-110/PT-120, WP-110/PT-120, etc. Terminate with RJ-45 connectors, or strip and attach to terminal strips or punchdown blocks as needed.
- **Length** - Available in pull boxes of 300m (985ft).
